Tracey,

The DPS Garage agenda topic mentions the safety of the facility. What are we doing to ensure the health and safety of the staff before the contract work is completed? Thanks!

Theresa

Good afternoon Vice President Mungoli.

The equipment at the facility is currently operating so there is no risk to the people working in the building. Over the past couple of years, service and maintenance became more frequent and costly, necessitating the replacement of the units.

Let me know if you have any additional questions.

Sincerely,
