Re: Proposed Residence at 1855 and 1899 Washington Road

I have met with the representative of the property owner at 1855 and 1899 Washington Road and have reviewed the architectural and landscape plans for the proposed residence. It has been explained to me that the owner must first obtain approval from the Rochester Hills Historic Districts Commission before a building permit can be issued for the property. The information I reviewed was submitted to the historic district commission for discussion at the upcoming May 10th meeting. By my signature below, I am notifying the commission that I have no objection to the proposed house and would support the commission's approval of the project.

I strongly urge the commission to approve this beautiful home. I see this addition to Winkler Mill pond as very positive.
