COUNCIL AND YOUTH COMMITTEE REPORTS

Rochester Hills Government Youth Council (RHGYC):

Vice President Carlock introduced RHGYC Representative Oliver Blakely.

Mr. Blakely stated that he is a ninth grader at Rochester High School and that this is his first year on the Youth Council and he also serves on the Planning Commission. He reported that in November, the Youth Council assisted with the City Council swearing-in ceremony and Light the Village, and they will be participating in the Rochester Area Christmas Parade, where they will be marching with City Council, on Sunday, December 7th. He noted that they have a Regular Meeting this Wednesday, December 3rd, at 6:00 p.m., and a Special Holiday Meeting next Wednesday, December 10th, at the Rochester Hills Museum at Van Hoosen Farm. He added that they plan to holiday shop for local nonprofits and continue working out the details for their winter event.

PUBLIC COMMENT for Items not on the Agenda

None.

LEGISLATIVE & ADMINISTRATIVE COMMENTS

Ms. Mungiola remarked that with three new members, City Council now looks very different. She congratulated Mr. Limberg, Ms. Mannino, and Mr. Skelcy, and encouraged them to take their time learning. She expressed her excitement to work with them, as well as the returning members.

Vice President Carlock echoed Ms. Mungiola's excitement to work with the new City Council Members. He underscored that although they do not receive many "thank you's," their work is integral to keeping the City moving in a direction they believe is best for residents.

Erin Sudrovech, Chief of Staff, extended a welcome to the new Council Members on behalf of Mayor Barnett. She also thanked Tracey Balint, Interim DPS Director/City Engineer, and the DPS team for clearing the roads over the holiday weekend.

She then provided the following updates:

- Veterans Day was very memorable, as Mayor Barnett attended ceremonies at Veterans Memorial Pointe, Rochester High School, and American House Senior Living Community to celebrate the occasion.*
- Ribbon cuttings for RealTruck, Zarminali Pediatrics, and Helping Hands Adult Daycare took place over the past few weeks.*
- The Brooklands Plaza opened to the public earlier this month, and an official ribbon cutting will be held in the spring. She commended the Parks & Natural Resources team for their work.*
- The City kicked off the holiday season with Light the Village, which saw a record turnout, at the Village of Rochester Hills on November 21st. She thanked everybody who helped out, including the Youth Council volunteers, who distributed 500 lighted wands in under 15 minutes.*

- She thanked everyone who has contributed to the Hometown Harvest food drive, which is a collaboration with the City of Rochester, and recognized Ms. Mungoli and Ms. Neubauer for leading the charge with this initiative.
- The City partnered with the Oakland County Sheriff's Office for Coats for the Cold. City employees are also working with Neighborhood House and their Giving Tree to provide gifts to families in the community.
- The Grand Marshal Gala with Pat McKay, Museum Manager, is on December 3rd, and the Rochester Area Hometown Christmas Parade is on December 7th at 2:00 p.m.
- Holiday Lights at Innovation Hills begins this weekend, December 5th and 6th, with special activities planned. The lights will be up all season long.

Vice President Carlock stated that Council is requested to appoint two Citizen Representatives to the OPC Social & Activity Center Committee, each for a three-year term to expire December 31, 2028.

Public Comment:

Edith Grashik, 1633 Glen Meadow Ct, voiced her desire to be on the OPC Social & Activity Center Committee. She shared that she has been attending the Board meetings for over a year now, and praised several offerings of the OPC, including trips, aqua Zumba, and balance classes. She emphasized that she would like to be a good steward for the City and the people who use the OPC.

Vice President Carlock Opened the Floor for Nominations.

Ms. Mungioli thanked Ms. Grashik for coming to make a comment on this item, pointing out that it is rare for a resident to come forward and express their interest in being on a committee. Honoring a request for continued leadership of the Board, she nominated Carol Morlan and Micheline Sommers, but stated that if there is an opening next time, it would be great to have Ms. Grashik on the Board.

Seeing No Further Nominations, Vice President Carlock Closed the Floor for Nominations.

2025-0509 Request for Acceptance of Engineer's Report for the proposed Special Assessment District (SAD) paving project of Childress Avenue and Enid Street

[Resolution \(Draft\).pdf](#)

Tracey Balint, Interim DPS Director/City Engineer, **Laurie Taylor**, Assessing Director, and **Karen Somerville**, Deputy Assessing Director, were present.

Ms. Balint stated that they are bringing forward two SAD projects, and the current item pertains to the Childress Avenue and Enid Street SAD paving project. She noted that the gravel road is located on the west side of Rochester Road in Section 15. She explained that this project started with an initial public information meeting in November 2023 and has followed the SAD process per the City's policy, and there are nine properties in the proposed SAD. She shared that they are here tonight to present the Engineer's Report, which outlines the history, scope of work, and estimated costs related to the paving project. She added that the draft assessment roll is also attached, and stated that their request is for City Council to accept the Engineer's Report and set the public hearing on the necessity for this project for December 15th, 2025.

Vice President Mungoli thanked Ms. Balint, Ms. Taylor, and Ms. Somerville for bringing this item forward, noting that it has been in the works for at least a year. She requested confirmation that accepting the Engineer's Report will not commit the City to any contractor to build a road or apply the SAD assessment to the homeowners yet.

Ms. Balint confirmed Vice President Mungoli's understanding, explaining that if City Council accepts the Engineer's Report and schedules the public hearing, which they are recommending for December 15th, then Council could discuss the matter at that time. She added that Council would also maintain the authority to approve or deny the construction contract when it is eventually brought forth.

Vice President Mungoli explained to the new Council Members that there is a certain percentage of impacted residents who must sign a petition agreeing to have the street in front of them paved, knowing they will pay a certain amount. She inquired how the assessment is determined. She also questioned whether there are any other factors they must consider beyond the public hearing on December 15th.

Ms. Somerville responded that the assessment is based on per buildable site and that even uninhabited or empty lots are subject to the SAD if they are deemed buildable. She also explained that the project costs are shared between the homeowners and the City and that homeowners are granted a 15-year repayment period, with the option to pay the balance in full or via annual installments. She

specified that these are billed as special assessments starting in April of the project year, with a June 1st deadline before interest begins to accrue on annual payment plans.

***Ms. Mannino** requested further explanation of the specific methodology used to calculate the resident assessment. She questioned whether the current cost-sharing split is mandated by State law or established through local procedure, noting that the division of costs between the City and the residents does not follow a simple 50/50 ratio.*

***Ms. Somerville** shared that the assessment structure is dictated by the City's special assessment district policy.*

***Ms. Taylor** added that City Council established a base assessment of \$12,000 in 2017, and this base is adjusted annually for inflation, bringing the current assessment cap to just over \$15,000 per unit.*

***Ms. Mannino** inquired about residents' ability to reconsider the project, mentioning that the initial petitions were signed quite some time ago.*

***Ms. Somerville** explained that residents have the right to request from the City a petition in favor of halting the project, and if they can successfully secure signatures from 50% of the impacted property owners opposing the project, the SAD process would be terminated.*

A motion was made by Mungioli, seconded by Neubauer, that this matter be Adopted by Resolution. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Mungioli, Neubauer, Limberg, Mannino and Skelcy

Enactment No: RES0305-2025

Tracey Balint, Interim DPS Director/City Engineer, **Laurie Taylor**, Assessing Director, and **Karen Somerville**, Deputy Assessing Director, were present.

Ms. Balint presented the Dunning Road SAD paving project, sharing that it covers one portion of Dunning Road east of Eastwood Drive in Section 31 of the City. She commented that similar to the previously discussed item, this project started with an initial public information meeting in October 2023 and has followed the SAD process per the City's policy, and there are nine properties within the proposed SAD. She added that they have attached the Engineer's Report and the draft assessment roll and that their request is for City Council to accept the Engineer's Report and set the public hearing on the necessity for this project for December 15th, 2025.

Public Comment:

Janice McCoury, 3451 Dunning, voiced her opposition to paving only nine houses, and pointed out that residents would still have to drive on dirt road to exit the subdivision. She also brought up financial concerns, commenting that her taxes would go up by \$1,000-\$2,000 per year.

Council Discussion:

Mr. Blair requested clarification regarding which section of Dunning would be paved.

Ms. Balint clarified that it would be only the end portion of Dunning, east of Eastwood.

Mr. Blair questioned why the City would pave only that segment, pointing out that there would be tremendous economies of scale to pave the whole road.

Ms. Balint explained that the residents supported a petition and that this item met the requirements of the SAD policy. She added that she was not involved in the initial request back in 2023, but reported that the part that received the appropriate support was just this portion of Dunning.

Ms. Neubauer inquired whether they could table this item until they address the concerns surrounding this project.

Ms. Taylor noted that what they are requesting tonight is City Council's acceptance of the report and the setting of a public hearing, which would allow for further discussion in two weeks.

Ms. Neubauer explained that City Council received a report for a specific portion of Dunning Road, and emphasized that evaluating a more comprehensive report for a larger area would be beneficial. She argued that this would better allow them to determine the extent of road to pave.

Ms. Taylor shared that special assessment districts are spearheaded by residents; the City does not promote them or ask residents to participate in them. She added that the residents in this area included Eastwood in their request but did not get

support from that street.

Ms. Neubauer proposed that Council postpone this item to an indeterminate date and reach out to Ms. McCoury and answer her questions. She underscored that knowing the potential economies of scale that could be obtained with a larger area is important.

Vice President Mungoli requested confirmation that the consultant will get paid, and questioned whether the City has a schedule for paving roads independent of the SAD process. She also inquired whether expanding the scope of the SAD for the current project would impact Capital Improvement Projects, street projects, or budget requests for the next three years.

Ms. Balint confirmed that the consultant will get paid, as their contract was approved in the spring, and noted that due to cost, the City does not have a list of proposed roads for paving. She also explained that while expanding the SAD might decrease the City's proportional share per resident, it would not lower the costs for the individual property owners, as they are already at a capped amount per parcel.

Vice President Mungoli inquired what would happen if Council does not postpone this item tonight and simply denies it.

Ms. Balint responded that the process would start over.

Ms. Somerville added that the residents would not have to undergo a waiting period to bring forth another petition. She detailed that if the project were expanded, the residents would be required to start over and secure a petition with 60% plus one of the votes from the affected homeowners.

Vice President Mungoli requested confirmation that whether the SAD includes nine residents or twenty, the cost to each homeowner remains capped at approximately \$15,000, and consequently, expanding the project would primarily increase the City's financial obligation beyond the currently projected \$350,000.

Ms. Somerville confirmed Vice President Mungoli's understanding.

Mr. Blair shared that he found this SAD in the CIP, and raised further concern.

Ms. Balint clarified that once they start the SAD process, DPS puts it in the CIP as a placeholder, but it is still resident-driven.

Mr. Blair voiced his desire to see a map or an exact percentage of the road that will be paved on that page in the CIP. He underscored that he would never want a project like this to be approved and that having more information in the CIP would be helpful.

Ms. Taylor commented that Council could have denied the petitions two years ago.

Ms. Neubauer made a formal motion to postpone this item to a date to be

determined by City staff and City Council after questions posed on the record have been considered, analyzed, and satisfied.

Attorney Christ confirmed that that is a valid motion and provides sufficient direction to staff.

A motion was made by Neubauer, seconded by Mungiola, that this matter be Postponed by Resolution to a date to be determined by City Staff and City Council after questions posed are answered. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Mungiola, Neubauer, Limberg, Mannino and Skelcy

Enactment No: RES0008-2026

Whereas, The Department of Public Services requests Rochester Hills City Council accept the Engineer's Report for the proposed paving project of Dunning Road, east of Eastwood Drive, City File Number E23-028.

Resolved, that the Rochester Hills City Council, on behalf of the City of Rochester Hills, hereby accepts the Engineer's Report for the proposed paving project of Dunning Road, east of Eastwood Drive and set the date of December 15, 2025 for the public hearing on necessity for the project.

Rochelle Lyon, Information Systems Director, presented a budget request of \$186,000 for MIS to purchase their 2026 budgeted equipment, software, and supplies. She noted that they will work with the Purchasing Department throughout the year as these items are needed to get the best price and value for the City through State contracts, cooperative contracts, and other supply sources.

A motion was made by Blair, seconded by Mungiola, that this matter be Adopted by Resolution. The motion carried by the following vote:

Order for asset management information system consulting services in the amount of \$274,750.00; Cultivate Geospatial Solutions, LLC., Indianapolis, IN

[SUPPL Mungoli Q&A.pdf](#)

Joe Snyder, Chief Financial Officer, **Rochelle Lyon**, Information Systems Director, **Tracey Balint**, Interim DPS Director/City Engineer, **Ken Elwert**, Parks & Natural Resources Director, and **Mike Viazanko**, Building/Ordinance/Facilities Director, were present.

Mr. Snyder explained that this funding is for specialized consulting services to guide the City in selecting a new enterprise asset management system (EAMS). He framed the initiative as a strategic modernization effort to protect and maintain nearly \$400 million in City infrastructure, including water, sewer, roads, pathways, parks, facilities, and forestry. He detailed the technical necessity for the project, noting that the City's current legacy system, Lucity, has become fragmented and unstable after 20 years of heavy customization. He shared that the goal of this new partnership is to move toward a configuration-based system that aligns with industry best practices and ISO 55001 standards, shifting City operations from a reactive to a proactive maintenance model. He continued that the selection of Cultivate Geospatial Solutions followed an exhaustive procurement process involving 13 RFP responses and two separate committees of directors and technical power users who prioritized vendor independence and cultural alignment. He discussed the following areas of Phase One:

- *Assessment: a gap analysis of current workflows and the documentation of technical requirements across all departments*
- *Planning: the creation of a strategic roadmap and system design that integrates with the City's GIS and financial systems*
- *Procurement: assistance in drafting RFP specifications for the eventual software vendor, facilitating demonstrations, and advising on contract negotiations*

He stated that if approved, Phase One would begin in January 2026, and Phase Two: Implementation would start in approximately July 2027, with a targeted completion date for the entire enterprise-wide rollout in the summer of 2029. He concluded by noting that City leadership has prepared for this transition through the Michigan Infrastructure Council's Asset Management Champion program, ensuring a unified, interconnected approach to managing the City's long-term investments.

Vice President Mungoli expressed concern over the proposed three-year implementation timeline. Drawing from her professional experience in the private sector, where global transitions are often completed in under a year, she questioned if the process could be accelerated.

Ms. Lyon explained that a wide-scale enterprise project of this nature requires a longer duration to ensure stability, and noted that while the current database remains intact, the front end of the legacy system is at risk of failure. She assured

City Council that departments have segmented their data as a safeguard and that the new system will prioritize robust data migration and backup protocols.

Vice President Mungiola requested clarification on the scope of assets that would be covered by this asset management information system.

Mr. Snyder explained that this system focuses on physical infrastructure such as water mains and buildings rather than financial assets.

Mr. Elwert shared that while the Forestry Division uses the current system daily, the other three divisions in the Parks & Natural Resources Department lack electronic tracking systems, highlighting a need for extensive training.

Vice President Mungiola inquired whether the new system would interact with intangible assets like water or tax bills. She also questioned whether this project is in the three-year budget yet.

Mr. Snyder clarified that there is no direct link to billing systems; however, proactive maintenance of physical infrastructure is expected to lower long-term system costs, which may indirectly benefit resident water rates. Regarding the budget, he noted that a specific dollar amount for the full implementation has not yet been placed in the three-year budget to avoid arbitrary figures; instead, the City will use the first quarter of 2026 to work with the consultants to develop a conservative and realistic budget estimate, which will be integrated into the Capital Improvement Plan by February or March of 2026.

Vice President Mungiola sought assurance regarding the role of AI in staffing. She emphasized that while software should enable employees to perform better, it should not replace the humans who contribute to the City's peak performance.

Ms. Lyon provided assurance, stating that AI is intended to augment, not replace, human roles.

President Carlock shared that he does the physical part of asset management at his day job, and questioned whether a new system would require the labor-intensive task of physically re-tagging the City's inventory.

Mr. Snyder explained that the City maintains comprehensive logs of current asset numbers and that a primary objective for Cultivate Geospatial Solutions is to migrate this "good data" into the new platform without the need for manual relabeling. He emphasized an internal policy against migrating "bad data," noting that the transition process will be used to identify gaps in existing records and establish a formal hierarchy for asset maintenance.

Ms. Lyon added that the new system will utilize pointers to ensure compatibility with various legacy tag formats and barcodes.

President Carlock inquired whether the software will track specific maintenance needs and provide end-of-life alerts to assist with equipment replacement planning.

Mr. Snyder confirmed this as a critical upgrade, explaining that while the current system functions as a computerized maintenance management system (CMMS) that tracks past work orders, the new enterprise asset management system (EAMS) will be a proactive tool capable of scheduling future preventative maintenance, such as HVAC filter changes, at precise intervals.

Mr. Elwert emphasized the value of this shift, acknowledging that while there is a significant learning curve for divisions not currently using these systems, the ultimate goal is to achieve substantial long-term staff savings through operational efficiency.

Mr. Blair noted that while reviewing the bid materials, he learned that Cultivate Geospatial Solutions also markets and sells their own asset management product. He cautioned against a scenario where a consultant uses their advisory position to steer the City toward their own product, and questioned what guardrails are in place to ensure the City receives an unbiased recommendation for the best software vendor.

Mr. Snyder responded that the selection committee vetted this concern through multiple interview rounds. He emphasized that the firm's "vendor agnostic" approach was actually considered one of their strongest points during the evaluation process.

Ms. Lyon voiced her belief that a vendor in the first phase cannot be a vendor in the second phase.

Ms. Mannino sought clarification on the "enterprise" scope of the project, noting that in a true enterprise environment, a solution typically integrates procurement, fixed asset tracking, and depreciation calculations into a single, holistic system. She expressed concern that the City might be compartmentalizing by focusing solely on a physical asset system, which could lead to inefficiencies or the need for a separate, costly finance system overhaul in the future. She challenged the administration to consult with Cultivate Geospatial Solutions on whether a more comprehensive solution might better serve a government entity of Rochester Hills size. She also questioned who will be the lead on the implementation of the new system.

Mr. Snyder explained that while this project is indeed enterprise-wide, its primary focus is the management of physical infrastructure currently housed in the legacy Lucity system, including DPS, facilities, parks, and IT. He shared a vision for future phases that would centralize specialized one-off systems used by the Fleet and Fire Departments into this single management umbrella. Regarding project leadership, he explained that the City intends to retain Cultivate for Phase Two to serve as a technical liaison and program manager between the City and the eventual software developer. He noted that this approach is intended to ensure that complex technical requirements are met, employees are properly trained, and the system is properly configured. He highlighted that the consultant will assist in developing key performance indicators (KPIs) across all departments, and these metrics will allow the City to monitor asset health in real time and provide a pulse on infrastructure failure risks.

Ms. Mannino requested confirmation that the \$274,750 fee for Phase One is a comprehensive, all-inclusive figure that covers travel, gap analysis, and the final RFP development.

Mr. Snyder confirmed that it is his responsibility to deliver the completed assessment and procurement roadmap within the specified budget without future requests for increases.

A motion was made by Mungiolli, seconded by Blair, that this matter be Adopted by Resolution. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Mungiolli, Neubauer, Limberg, Mannino and Skelcy

Enactment No: RES0307-2025

Resolved, that the Rochester Hills City Council hereby authorizes a contract/blanket purchase order for asset management information system consulting services to Cultivate Geospatial Solutions, LLC., Indianapolis, Indiana in the amount of \$274,750.00 and further authorizes the Procurement Manager to execute an agreement on behalf of the City.

Further Resolved, that the City's acceptance of the proposal and approval of the award of a contract shall be contingent and conditioned upon the parties' entry into and execution of a written agreement acceptable to the City.

2025-0494 Request for Purchase Authorization - Citywide: Blanket Purchase Order for purchase of various maintenance, hardware, and building supplies in the amount not-to-exceed \$120,000.00 through December 31, 2026; The Home Depot, Atlanta, GA

[Resolution \(Draft\).pdf](#)

Joe Snyder, Chief Financial Officer, shared that this particular blanket is used Citywide by several departments, primarily Facilities, DPS, and the Parks and Grounds Division.

A motion was made by Blair, seconded by Mungiolli, that this matter be Adopted by Resolution. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Mungiolli, Neubauer, Limberg, Mannino and Skelcy

Enactment No: RES0308-2025

Resolved, that the Rochester Hills City Council hereby authorizes a blanket purchase order for purchase of various maintenance, hardware, and building supplies to The Home Depot, Atlanta, Georgia in the amount not-to-exceed \$120,000.00 through December 31, 2026.

Further Resolved, that the City's acceptance of the proposal and approval of the award of a contract shall be contingent and conditioned upon the parties' entry into and execution of a written agreement acceptable to the City.

- 2025-0488** Request for Purchase Authorization - CLERKS: Blanket Purchase Order for monument and marker sales in the amount not-to-exceed \$100,000.00 through December 31, 2026; Patten Monument Company, Comstock Park, MI

Attachments: [120125 Agenda Summary.pdf](#)
[Resolution \(Draft\).pdf](#)

Clerk Scott noted that this expenditure is not a cost absorbed by the City but rather functions as a pass-through. She explained that under this model, the City collects payments directly from customers and is subsequently invoiced by the vendor, Patten, for a percentage of the sale. She highlighted that the revenue generated from these sales is directed into the Perpetual Care Trust Fund, which is dedicated to the ongoing maintenance and future preservation of the Van Hoosen Jones Stoney Creek Cemetery. She noted that the trust fund is performing well under the investment policies and supervision of CFO Snyder, and added that while previous blanket approvals for these items were typically under \$25,000, the request was increased to \$100,000 last year to accommodate higher demand.

Mr. Blair shared that the City has worked with Patten for several years, noting that they offer a very high-quality product. He pointed out that monument sales serve as a profit center for the City.

A motion was made by Blair, seconded by Neubauer, that this matter be Adopted by Resolution. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Mungiolli, Neubauer, Limberg, Mannino and Skelcy

Enactment No: RES0309-2025

Resolved, that the Rochester Hills City Council hereby authorizes a blanket purchase order for monument and marker sales to Patten Monument Company, Comstock Park, Michigan in the amount not-to-exceed \$100,000.00 through December 31, 2026.

Further Resolved, that the City's acceptance of the proposal and approval of the award of a contract shall be contingent and conditioned upon the parties' entry into and execution of a written agreement acceptable to the City.
