RE: Technical Committee

In June, 2006, City Council dissolved its standing Communication Committees, and in place of the those Committees, established several Technical Review Committees.

One of the Committees established was the "Environmental Clean-up and Oversight Technical Review Committee" (EOC), which was established to oversee the environmental cleanup at the Hamlin/Adams and Madison Park sites.

At inception, the EOC Committee consisted of two (2) members of City Council, and members of the City Administration as designated by the Mayor.

As the EOC Committee began meeting, the Committee came to the conclusion that the City and the Committee would be better served if a member of the City's Brownfield Redevelopment Authority were added.

Therefore, at its Regular June 27, 2007 Meeting, City Council approved a resolution to increase the membership of the EOC Committee by adding one (1) Brownfield Redevelopment Authority (BRA) member, selected by the Brownfield Authority.

The Committee Members are:

- James Rosen, Council President
- Jim Duistermars, Council Member
- Ravi Yalamanchi, Council Member
- Derek Delacourt, Deputy Director, Planning Dept.
- Paul Davis, City Engineer, Engineering Dept.
- Roger Moore, Professional Surveyor, Eng. Dept.

The Committee meets on the **first Thursday of each month at 9:00 AM** in Conference Room 221 (next to Planning). The meetings typically last about two hours.

A copy of the notes from the EOC Committee meetings are attached for your information.
