RE: Yates Cider Mill

Discussion was held last month on the proposed siding replacement project proposed by Yates Cider Mill. Attached, please find the "Application for Approval of Modification of Resource" as filed by Mr. Titus. The applicant has also provided color photographs showing the extent of damage to the existing siding. I have scanned the photos and attached them to the application – but the black and white copies are not as clear as the color copies. I will have the color photos and a sample motion for you the night of the meeting. Thank you.

Sandi
