# EMERGENCY RESPONSE INFORMATION

## SPECIAL FIREWORKS (UN0335 -FIREWORKS 1.3G)

Special Fireworks contain explosive and pyrotechnic compositions and are classified as Fireworks 1.3G by the U.S. Department of Transportation. No chemical components are released during normal handling and storage of shells.

No chemical components are released during normal handling of shells, storage, and transportation. In the event of a vehicle fire that reached the cargo area, the fireworks are likely to ignite. They will explode rapidly, spreading burning particles over a several hundred-foot areas. A mass explosion is unlikely, but precautions should be taken if one does occur. Smoke and potentially irritating gases will be produced in a fire. If the fireworks are spilled as the result of an accident but do not ignite, they can safely be picked up and repackaged. The area should be kept cleared of unnecessary people while this is being done.

### **EMERGENCY ACTION**

In case of fire, stop traffic and begin to clear the area for 2,500 feet (1/2 mile) in all directions. Keep unnecessary people away. **DO NOT** fight fire in cargo area. Try to prevent other types of fire from reaching the cargo area. Self-contained breathing apparatus (SCBA) and structural firefighter's protective clothing will provide some limited protection. Firefighters should retreat if fire approaches cargo area.

For additional information, call the shipper using the emergency telephone number listed on the shipping papers; if there is no answer, call Chemtel's 24-Hour number 800-255-3924.

### **FIRE**

Truck fire (other than cargo area): Flood with water. The fires may start again. Unhook and separate tractor from trailer, if possible.

Cargo fire: **DO NOT** move cargo or vehicle if cargo has been exposed to heat. **DO NOT** fight fire when it reaches cargo. Withdraw from area and let fire burn. Use firefighting team to prevent spread of fire to adjacent structures and materials. Promptly isolate the scene by removing all persons from the vicinity of the incident. First, move people out of line-of-sight of the scene and away from windows. Obtain more information from competent authorities listed on the shipping papers.

### **SPILL OF CARGO**

Shut off all ignition sources. There shall be no flares, smoking, tools capable of producing sparks, or flames in the vicinity of the spilled material. Cautiously pick up the spilled devices and place them in cardboard cartons.

### **FIRST AID**

Call emergency medical care.

Use first aid treatment according to the nature of the injury.
