

24/7 Express Wash

A State-of-the-art, Fully Automated, Locally Owned, Community Car Wash.

Background – The Quigley family proposes building a car wash at 1100 S. Rochester Rd., currently zoned Community Business, located in the parking lot at Rochester & Avon behind Burger King, between Aldi and Enterprise-rent-a-car.

- **State-of-the-art, Fully Automated**

Without the need for an outdated conveyor set-up, our In-Bay Automatic Wash can service customers at their convenience, any time of day or night.

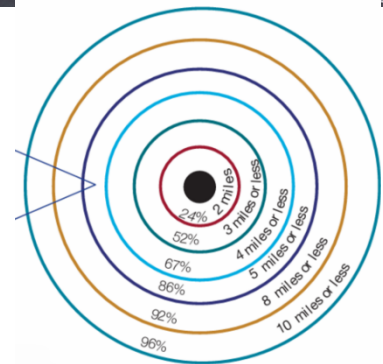

The 24 Hour, customer friendly operation of the car wash is easily accessed from the car similar to using an ATM.

- **Community Business**

Car washes serve their community. As research shows, 86% of customers live within 5 miles. Currently, the north Rochester Hills area has only one car wash that is completely overwhelmed with customer traffic.

- **Membership Based**

While open to drive-up business, our wash will be focused on servicing members of our Unlimited Wash Club.

High-tech license plate scanning technology provides a quick and convenient experience for members, while a high definition, easy to use touch screen will service non-members.

- **Locally Owned**

The Quigley Family, Rochester Hills residents since 1985, will have a business that serves their community. Unlike national chains like WhiteWater and Jax that are owned by large corporations that may not understand the needs of the community.
