**Legislative File No:** 2009-0360

**TO:** Mayor and City Council Members  
**FROM:** Roger Rouse, Director, Department of Public Services  
**DATE:** September 3, 2009  
**SUBJECT:** Proposed Sanitary Sewer Ordinance Revisions, Grease Interceptor Presentation

---

**BACKGROUND:**

The Department of Public Services will be bringing forth to City Council a request to adopt revisions to Chapter 102, Utilities, of our Code of Ordinances. As part of those revisions, a grease interceptor section is proposed in Section 102-638, Pretreatment and Control Facilities, to strengthen the ordinance as it pertains to grease discharge into our sanitary sewer system, which has negative impacts on the system. Mike Ellis, the Director of Claims for the Michigan Municipal Risk Management Authority (MMRMA), has assisted the City with information on how to improve our ordinance in hopes to minimize the City's issues with grease buildup in our sanitary sewer system. Mr. Ellis will be present for an open discussion regarding the revisions. Attached for Council review is a copy of the proposed ordinance revisions. This document is still under review by the City's legal council and will be brought forth at a future Council meeting for consideration for adoption.
