Re: Transportation Master Plan

Led by the DPS Department and the consultant team of OHM and MKSK, the Transportation Master Plans lays out the vision for transportation improvements over the next 10 to 15 years. As you may recall, we kicked off this effort during the joint meeting in 2020, and the team has been hard at work ever since. The Plan was presented at the February 1, 2021 joint meeting, and a productive discussion ensued. Please see the attached minutes from that meeting. During the joint meeting, interactive polls were taken asking questions about e-bikes and scooters on pathways, looking into transit options and allowing electric charging stations on City property. Subsequent to receiving input from City Council and the Planning Commission, the Plan was posted on the City's website for public comment prior to going before both bodies again for endorsement of the Plan. A summary of changes that have been made since the joint meeting is attached. If anyone has any final input, please forward to Paul Davis at [davisp@rochesterhills.org](mailto:davisp@rochesterhills.org)

Staff asks that the Planning Commission endorse the 2021 Transportation Master Plan and recommend that City Council do the same.

**MOTION** by \_\_\_\_\_, seconded by \_\_\_\_\_, the Rochester Hills Planning Commission hereby endorses the 2021 Transportation Master Plan.
