Re: Verizon Wireless #1274 – Tienken & Washington

Enclosed for your review are:

1. Supplementary photo sims of the Tienken –Washington monopine
2. Coverage Plots showing increased service area related to the monopine. Kindly note that the greatest service improvements are to wireless capacity for residents in the area
3. Aerial photo showing location of photographs. Note that Photo 2 along the entire stretch of Tienken Road to the East and West, the monopine will not be visible.

Again, we invite the Rochester Hills Historic Commission to view a similar installation on the Historic Manresa site located on the NW quadrant of Woodward Ave. & 16 Mile in the City of Bloomfield Hills.

1274 Tienken & Washington PhotoSims

Notes:

Proposed tower location and point of view of photos taken.
