Q)

**Information for Work Order**  
Resident said about two years ago there was a left turn restriction sign put up because of the construction going on Walton and now that has been done for a long time, can that sign come down now?

**Final Request Comments**  
Spoke to homeowner and indicated that we will be going back to the ATSB with a recommendation on December 9th. I indicated that staff is still in the process of finalizing the traffic study and that we would send AGENDAS to residents with Valley Steam Subdivision.
