City of Rochester Hills Groundskeeping Services and Staffing Study RFP-RH-24-060 Bid Closing: Thursday, October 24, 2024 @ 3:00 PM Are there any exceptions? Firm established: Years in business: Type of Organization: What payment method(s) will your company accept from the City? Provide a brief history and organization of the firm, including the location of the office where the work will be performed:	FEA 12701 Fair Lakes Circle, Suite 101 Fairfax, VA 22033 Yes - Hold Harmless 1992 32 years Corporation City PO/Check FEA was founded in 1992. They help organizations become more efficient in their performance through asset management, strategic planning and financial analysis. FEA works with an organization to link their goals to programs, people, and infrastructure to be able to achieve them. They work with schools, governments and corporations nationwide. FEA has a data-driven approach that ensures continuous improvement, with a focus on excelling in performance and being proactive with change management. Work will be completed from several FEA offices.	Corporation City PO/Check Matrix is a management consulting firm that is dedicated to provide quality analytical	MGT Impact Solutions 4320 W Kennedy Blvd Tampa, FL 33609 No 1974 50 years LLC City PO/Check Established in 1974 by a group of former public sector employees to provide management consulting. The firm has a nearly 50-year track record for supporting institutions in their pursuit of performance excellence. MGT has a total of 920 active employees, with headquarters in Tampa, FL. There are 26 offices across the U.S. MGT of America Inc merged into MGT of America Consulting LLC as of 2016. In 2024, MGT rebranded in celebration of their 50th anniversary - also marking the consolidation of ten companies under the legal name of MGT Impact Solutions, LLC.
Provide a narrative of your firm's prior experience and qualifications pertaining to the Scope of Work and provide a list of projects with similar scopes.	FEA has over 30 years of experience in regards to enhancing facility management, including parks and recreation. They have done staffing analysis, assessment of operations, strategic planning, etc. For the City's needs, FEA would team up with StudioCPG. They have collaborated for over 10 years on similar scopes of work. StudioCPG has had over 20 years of experience supporting the public sector and municipal clients in parks and recreation asset assessments. UMaine Organization Assessment - FEA assisted with elevating the maintenance, custodial and grounds operations to an APPA Level 3 service standard. FEA recommended a phased staffing plan and alternative funding sources to achieve long-term sustainability. City of Louisville Park Maintenance & Management Plan - Under StudioCPG leadership, FEA assessed park maintenance operations and provided strategic planning. FEA provided actionable recommendations that enabled the city to optimize its park services, enhance user satisfaction, and ensure effective use of public funds. City of Raleigh Site Condition Assessment & Capital Planning - FEA performed a site condition assessment for the City of Raleigh's parks, emphasizing operational effectiveness and capital planning.	Since being incorporated in 2003, Matrix has served over 1,700 clients, including over 50 dedicated parks and recreation department studies. Currently, similar scope jobs include Palmetto Bay, FL and East Bay Regional Parks District, CA. The firm has conducted over 100 organization-wide studies, including all municipal functions, in places such as Portage, MI, Joplin, MO and Jefferson City, MO. The firm provided an extensive list of public works clients in their proposal - where they have significant experience.	MGT has conducted multiple compensation, classification, and HR studies (including staffing studies) for clients nationwide. They are dedicated to helping clients find the procedures and people they need to deliver the quality service they desire. MGT believes that a competitive, attractive compensation program is key to achieving those desired goals as the City wants to update their compensation system. MGT has completed similar projects all across the country. For example, in Michigan: Central Michigan University/ West Shore Community College/Livingston Community Health Authority/ Sault Tribe of Chippewa Indians Countles: Dickinson/Gogebic/Ingham/Kent/Lapeer/Livingston/Lenawee/Menominee/ Muskegon/St Clair
Was a list of comparable projects/ references provided?	Yes. Contact information was provided for projects listed in previous question.	Yes - Contact information is within the proposal for the following projects: Bradenton, FL - Organization and Operational Assessment of Public Works Dept Palmetto Bay, FL - Operational Assessment of Parks and Recreation Vacaville, CA - Organization and Operational Review of the Public Works Dept	Yes - Contact information is within the proposal for the following projects. Maricopa County, AZ - succession planning and organization management needs Stonecrest, GA - Classification and Compensation Study or 65 City positions Colorado - Organizations efficiency assessment of Division of Facilities Management
Provide a list of the project team members that you propose to use and identify each team member's responsibilities. Include a brief description of the experience and qualifications of the proposed staff member(s) who will be performing the services. List any their role on the team and office location.	Steve Meador - Project Manager - Fairfax, VA Office Most recent experience includes managing Virginia Dept of Transportation's Facility Condition Assessments and leading University of Maine's System Organizational Assessment. Laurie Gilmer - Senior Advisor - Santa Rosa, CA President and COO of FEA - she will provide senior-level oversight, focusing on organizational assessments and strategic planning. Recent experience includes Bio-Rad Facility Condition Assessments and City of San Jose's Master Agreement. Maureen Roskoski - Analyst - Denver, CO VP of FEA - will be Lead Analyst and responsible for data analysis and maintenance planning. Recent Experience includes City of Louisville Parks and Rec Maintenance Plan and U of Maine level of service and staffing analysis. He has over 20 years of experience in management consulting and local government management. Ben Kittelson - Project Manager - Jacksonville, FL Manage day-to-day aspects of project - such as budget control, scheduling, and meeting objectives. He will lead consulting staff in conducting analyses and preparing deliverables for the project. Ben began consulting in 2019 after 7 years of direct service to local governments. Mick Renneisen - Parks and Recreation and Maintenance Subject Matter Expert-Bloomington, IN Will provide input and guidance for parks, recreation and maintenance components of this project. Has experience in local government from being Deputy Mayor for five years and Director of Parks and Recreation for 20 years in Bloomington, IN. Polly Englot - Staff Consultant - San Francisco, CA Will work at the direction of Ben (Subject Matter Expert) in conducting interviews, directing research and analysis, preparing recommendations and drafting deliverables. She has worked in local government, nonprofit, and international development settings.	Janani Ramachandran Yates, Partner - Detroit – Data analysis, strategy, and report writing. Has nearly 15 years of experience in federal, state and local government. Has experience balancing budgets, driving efficient financial processes, steering teams through crisis and growth, and leveraging analytical capacity to increase performance and reduce costs. She had a leadership role with the City of Detroit and District of Columbia focusing on developing and presenting analyses in support of a balanced annual budget and capital plan. Steve Watson, Partner - Detroit - Data analysis, strategy, and report writing. Has nearly two decades of experience in state and local government, advising public officials, balancing budgets, and solving problems through times of fiscal stress. Served as Budget Director & Deputy CFO for the City of Detroit, and received widespread recognition designing and implementing an innovative budget strategy for the City's "pension cliff" from the bankruptcy restructuring plan, resulting in release from State oversight, return to investment grade credit, and resumption of annual pension contributions in 2024.

City of Rochester Hills Groundskeeping Services and Staffing Study RFP-RH-24-060 Bid Closing: Thursday, October 24, 2024 @ 3:00 PM	PROS Consulting, Inc. 35 Whittington Dr. Suite 300 Brownsburg, IN 46112					Raftelis Financial C 19 Garfield Plac Cincinnati, O	e, Suite 500		Watson & Yates 2937 E Grand Blvd Suite 310 Detroit, MI 48202					
Will subcontractors be used for this project? If so, was a list provided?	No			No			No	No						
Provide a detailed description of the services and methods by which the work identified in the Scope of Services will be performed.	PROS anticipates to develop the Groundskeeping and Staffing Study over a 20-week period after project kick-off. PROS understands that the City is looking to have a comprehensive analysis of it's park and natural resources maintenance operations and practices. The result of this effort will identify opportunities to improve current maintenance practices, implementation of necessary systems, and cost efficiencies. Also, the process will demonstrate how to use the information in making decisions regarding long-term and short-term services. The tasks to be performed by PROS will include: • Project Kick-off/Coordination - confirm project goals, objectives and expectations that will help guide actions and decisions of the team. • Site Assessment: PROS will review all Rochester Hills facilities with maintenance staff over a two-day period to assess on-site maintenance practices. The assessment will evaluate all aspects of the buildings and grounds maintenance operations to determine strengths, weaknesses, opportunities, and threats to success. • Maintenance Team/Parks and Rec Dept Workshop - PROS to facilitate a workshop with the maintenance outcomes required for each site and establish standards. • Maintenance Standards Cost Analysis: PROS to create frequency standards for maintenance standards Cost Analysis: PROS to create frequency standards for maintenance standards, assess costs associated with major activities and tasks, develop a unit cost for each major maintenance component to help the department project future operations and maintenance costs, and conduct a time-task analysis that will examine existing time allocations. • Maintenance Management Plan Report Development - PROS will develop the Maintenance Management Plan that will include maintenance strategies, and organizational design and implementation. • Briefing - final presentation to the department will be conducted and all findings presented.				and collecting info Results in order to with an associated Proposed work pla Initiate and Mana expectations to fin Conduct Initial Fio operations through Assess Operation develop organizati the City's program. Prepare Project I contracted service to be reviewed by and a final present	Raftelis focuses on specific objectives using their "Six R" approach. This involves soliciting and collecting information on City Responsibilities, Resources, Requirements, and Results in order to identify possible organizational and operational Recommendations with an associated Roadmap to implement positive change. Proposed work plan: Initiate and Manage Engagement - Meet with project team to review details and set expectations to finalize project schedule. Conduct Initial Field Work - Collect data and information regarding department operations through interviews, focus groups, and fieldwork. Assess Operations and Staffing - After conducting interviews and observations, they will develop organizational and operational data to provide recommendations on improving the City's program. Prepare Project Deliverables - Review preliminary recommendations for staffing and contracted services with the City. Once details are finalized, a draft report will be prepared to be reviewed by the City. After Raftelis reviews comments, a final report will be provided and a final presentation can be done virtually.				Using the framework established by Rochester Hills's 2023-2033 Parks and Natural Resources Strategic plan, Watson & Yates will conduct a study of the current operations of the grounds maintenance function across all City departments and divisions and make strategic recommendations to reduce costs and increase service quality. To accomplish the desired scope, the following approach will take place: • Project Kickoff - Meet in person at City Offices to hold meeting to review timelines, scope, data requirements, and overall approach. • Data Collection and Review of Current State Operations - Consolidate and analyze data to identify key patterns and issues in the organization's provision of personnel and non-personnel resources. Then, they will relate this information to the goals set forth in the strategic plan and begin to identify strengths, weaknesses and opportunities for improvement and enhancement. W&Y will also conduct small group interviews with key Rochester Hills staff. • Analysis and Comparison with Future State - combine findings from the interviews with initial data analysis to create a comparison framework between the current and future state. • Recommendations - Create a Report on the study's findings with 4 key deliverables: Summary of Findings, Recommendations Table, Organizational Structure and Staffing Plan and Implementation Roadmap. • Closeout - once the project is complete, provide a final presentation of the report to the City, including a PowerPoint deck summarizing our methodology, analysis, findings, recommendations, and implementation roadmap.
