Good morning -

Please see the attached notice regarding a proposed development that will be on the May 20, 2025 Planning Commission agenda. The requests associated with this development were postponed at the February 18th meeting.

City ordinances require the notification of homeowners associations within 300 ft. of the proposed property when there is a request for a Wetland Use Permit and I obtained your emails from the City's HOA list.

If you have any questions please let me know.

Jennifer
