Mark, we are nearing completion at Meadow Brook Elementary School. We have a new principal, Maria Etienne, who has inquired about getting some "no parking" signs installed on the north side of Muenster in front of the school. In the past, parents have parked there, narrowing the road to through traffic. We now have sufficient parking, we believe, in the parking lot. Both she and the police liaison believe they could do a better job of managing the traffic, if no parking signs were installed.

There are some on the south side of Muenster. Can you assist us in getting this done? School begins August 24, so I know this is late notice, but let me know what can be done. Thank you.
