Ms. Jane Leslie City of Rochester Hills 1000 Rochester Hills Drive Rochester Hills, MI 48309-3033

Dear Ms. Leslie:

Enclosed is the contract between SMART and the City of Rochester Hills for the FY 2009 Municipal Credit Program. Your community is eligible to receive up to \$64,681 in Municipal Credits. In order to receive this entire amount, your community must have local match funds of \$77,136. Without a local match, you are only eligible to receive \$32,341 from SMART. The balance of your funds will be sent to the Oakland County Public Transportation Authority (OCPTA). If you wish to receive this balance, you must complete the enclosed OCPTA application and the Waiver of Right form. If you transfer your funds to another municipality they may have the local match requirement allowing you to execute the contract for the full amount.

To receive your 2009 funds, please complete the enclosed contracts, including Exhibits "A" and "B" and the EEOC Report A form. The employee information reported on the EEOC form should only include the department and persons involved in the transportation program. Also, if your contract is for the lesser municipal credit amount do not forget to fill out the OCPTA application and the Waiver of Right from. The Exhibit "C", Quarterly Operating Report, is due at the end of each quarter during the term of the contract and is the mechanism SMART's Finance Department will use to disburse municipal credit funds.

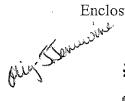

Once you have completed and signed the contracts, please return both copies to me with the attachments, EEOC Report A form, and the OCPTA application and Waiver of Right form if applicable. After the contract has been reviewed and executed by SMART's General Manager, I will return a fully executed contract to you for your file. As always, feel free to call me at (248) 362,3024 if you have questions or need my assistance to fill out the contract.

### MONITORING DAILY SERVICE:

### Dispatching:

The Transportation Program is two days in advance reservation for all appointment trips, such as doctors, work related, hair, therapy, etc., and one day in advance requested for non appointment. We also have regularly scheduled trips with only a call in if they are canceling. We ask people that need to cancel the day of service to call between 8:00–9:00 a.m. Emergency transportation such as doctor, dental, medicine, etc., is handled same day of service. Our dispatching hours are from 10:00 a.m. – 2:00 p.m. We have a Motorola Communications System (F.C.CC.) on all buses. The Base system is with the Dispatcher. The Dispatcher has at her finger tips all the emergency numbers if the need arises.

### <u>Driver:</u>

The driver picks up keys and trip sheets and donation box at the office. Visually the bus is examined each morning. Gas, oil, transmission fluid, etc., is checked daily. Each donation metal box has a master lock for safety. Donations are put in the slotted box by the rider. At the end of the day the box is then brought to the office with van keys after the bus has beer washed, if needed, and gassed up. The finical deprecounts the donations records, and puts in fire proof locked safe for the next day's deposit. Driver records on trip sheet number of trips, seniors served, mileage, amount of gas put in at the end of the day and signs the trip sheet.

### Transportation Manager.

The Transportation Manager inspects all buses weekly for cleanliness, fire treads, dins/dents, gages, etc. Schedules all bus repair or mechanical problems and preventative maintenance and supervises both the driver and dispatcher.

### Department Head:

Is responsible for all paperwork such as Bills, Ridership, Trips, Mileage, Gas Wage, etc., supervises the Transportation Manager and responsible for holding bimonthly meetings for driver, dispatchers and Transportation Manager. Develop training once a year. Attend meeting pertaining to transportation.

### Director:

The Director is responsible for coordination with MDOT Specialized Service Grant– Smart Municipal credits and all other funding/in-kind sources. Planning, administration and proposals.

### Training:

New drivers, when hired in, are given a job description. Personnel policy and printed material of all OPC services and programs; plus an OPC Newsletter and Vintage View Newspaper. Michigan Code of Ethics, time cards and explanation of the payroll procedures.

A new driver spends one day without driving, riding with the Transportation Manager. The first day is spent at handling passengers with wheelchairs, walkers/canes. The psychology behind this transportation such as working with older frail persons, mental and physically handicapped persons in the standard of excellence OPC sets for their programs. Resource available to clients in area, the who, what and where, plus general driving information in Operating manuals on vans.

The second day the new driver drives the Transportation Manager. The diver goes through the morning bus check-van wash, trip sheet, pick up donation locked box procedures. The driver is observed loading and unloading riders, escorting passengers if needed. Being sure emergency brake is used at each loading and unloadingand stool is secured for stepping off and on van for each rider on vans that do not have a step on step. How to use the F.C.C. communication system/call letters. Where/how to gas up at the end of the day, etc.

The third day is spent part with another diver and part on their own. Once everyone feels comfortable that they are ready, and OPC form is signed by the driver that states the safety feature and drivers' meeting every other month. Periodically drivers are observed by Transportation Manager going with them for ½ day.

All drivers in 1997 went through an all day training as recommended by our Insurance Company.

### Maintenance Program:

We have a maintenance schedule for the vans, with oil and lube done every 3,000 miles. Our vans go through inspection every year. We replace vans every 5 years or sooner if the need arises. Huntington Ford Dealership in Rochester Hills for Fords vehicles, Meadowbrook Dodge for our Dodge van, Creative Controls, Inc., for all repairs on our lift vans, and Hoekstra for our new vans that are ADA approved equipment.
