RE: 2005 Millage Rates

Based on the passage of the Green/Open Space Millage and the OPC Transportation Millage proposals on the September 13, 2005 primary election and 2006 Budget Workshop discussions, the recommended millage rate for the 2006 Fiscal Year is 9.6681.

This rate is established by adding the approved OPC Transportation of 0.0900 mill and Green/Open Space of 0.3000 mill to 9.2781 mills, as discussed at Budget Workshops. Please find an itemized breakdown of the proposed total millage attached.

Should you have any questions or concerns, please contact me.
