
CITY OF ROCHESTER HILLS

Greg Hooper, President

DATE: December 1, 2010

TO: City Council Members

RE: Police & Road Funding TRC

The Police and Road Funding Technical Review Committee was formed in 2007 and was comprised of four (4) citizen representatives and three (3) members of Council.

In October 2008 the committee structure changed to include seven (7) citizen representatives and two (2) members of Council.

Five of the currently serving members have expressed an interest in being reappointed. If Council so desires, consideration could be given to reducing the number of citizen representatives to five (5) thereby maintaining the continuity of the current committee. Otherwise, Council can choose maintain the current number of citizen representative and nominate and appoint additional members.
