18 PLANT LOCATIONS in 10 countries

Listed on NYSE with the stock symbol **WBC**

MANUFACTURING LOCATIONS

* Joint Venture

A global company with 18 manufacturing locations in 10 countries

WABCO's North American PD Center Plan

OUR PLAN : WABCO would like to grow its engineering capabilities in the US to 1.) better connect with the regional customers, 2.) develop technologies specific to the region, 3.) deploy those technologies globally where the benefits are also apparent for other regions. As the US market is indicating sustainable growth for the foreseeable future, all technologies are considered for the region including Stability Systems (ESC), Antilock Brake Systems (ABS), Trailer Systems, Foundation Brakes and Air Supply, and Automated Transmission Controls. The engineering focus is around Systems Architecture, Functional Development, and Project Management. Supporting roles include IT/Data Systems and Software Engineering.

HIRING PLAN:

1st year: 18 employees

4th year: 80 employees

2nd year: 40 employees

5th year: 100 employees

3rd year: 60 employees

We will be meeting MEGA's requirements for wages and benefits.
