Dear Rochester Hills Planning Commission,

We are writing to express our strong support for the final site plan for Auburn Angara Oaks. This innovative residential project represents the best of what Rochester Hills hopes to be; inclusive, neighborly, environmentally responsible and demonstrating leadership in recognizing the dignity of your residents with intellectual disabilities.

This planned community offers adults with intellectual and developmental disabilities the opportunity to live in a safe community, integrated with their neuro-typical neighbors. They will grow in capability and confidence as they live independently and see themselves as truly a part of this blended community. I can not overstate the challenges parents of IDD adults face in trying to offer their children this type of independence and safety in a planned development which will support all of their needs. Such developments are incredibly rare, making this an opportunity for Rochester Hills to both support its most vulnerable residents and their families as well as being a trailblazer among forward thinking communities.

Our son will be a resident in this community and we are most hopeful for all it will mean for him. Living with us, he is isolated from his friends and has limited opportunities to independently form relationships. He also lacks an environment where he can really grow in self-management skills and confidence. We believe strongly in the mission of Rochester Housing Solutions and know that Three Oaks have worked diligently to make sure their site plans are in full compliance with all that has been requested by the Planning Commission.

Now is the time for this development to move to the building stage. We urge you to give final approval to the site plans on October 7. Your approval will set in motion a truly special development and transform the lives of countless IDD adults.

Thank You,

John and Lisa Juriga
