How many years providing public underground utility repairs	<p>Sergio Iacobacci, our founding member and owner, started Aielli Construction Company in 1979.</p> <p>In 1986, the company was incorporated with the State of Michigan. Since 1979, Aielli Construction Company, Inc. has performed countless underground utility installation and repairs (first response, emergency and scheduled) for many communities throughout southeast Michigan. We are currently an emergency contractor for a half dozen communities in Wayne, Oakland and Macomb Counties.</p>	<p>D'Angelo Brothers was founded back in 1955 to primarily assist with Municipalities.</p> <p>Originally most all work was installing new water taps and services, as years went on the repair work followed. Our main customers and work is located in Oakland County, with that the majority of all of our work is repairs, maintenance, and upgrades associated with the Water &amp; Sewer Infrastructure from both large and small. Our crews work on tasks from changing out stop box's, installing water taps and services, to replacing water main, installing gate wells, repairing seal plates, installation of hydrants, to installing and repairing sewer mains that are 5' deep to 27' deep and with pipe ranges from 2"-60" in diameter for both gravity and pressure systems.</p>	<p>Major has served the City of Detroit as a Contractor for over 40 years. We are a Detroit headquartered company that employs a significant Detroit Resident work force. Major self performs earthwork, u/g utilities, concrete, asphalt and general construction management - which aligns our expertise seamlessly with the u/g utility repairs.</p>	<p>SEI has been providing public underground utility repairs and installation of sanitary sewer, water main and storm sewer for over 50 years.</p>
Capabilities/Knowledge as it relates to public underground utility repairs	<p>Aielli Construction Company, Inc. has dedicated crews that specialize in emergency water main and sewer repairs. Our diverse catalogue of equipment can handle repairs of any size, depth and various ground conditions.</p> <p>With our headquarters and yard located in Shelby Township, Michigan, first response time for emergencies in the City of Rochester Hills would be prompt and timely.</p> <p>Our staff has over 100 years of experience, combined in underground utility design, installation and repairs. We have certifications in confined space entry and safety; we also have two civil engineers on staff which would be at the service of the City of Rochester Hills in unique repair/installation situations.</p> <p>Our support staff can source parts and schedule repairs quickly and efficiently to minimize any impact an emergency would have on the City of Rochester Hills residents.</p>	<p>D'Angelo Brothers is a 3rd generation company. Today (3) forman have worked with the first generation and which still carry a very active role in our companies daily work. Throughout the years Chad, Dan &amp; Vince have been involved with many of the interesting situations that municipal repairs may bring. This knowledge helps with planning and foresight tremendously as our infrastructure ages. Given that our company is centralized around working for municipalities all of our crews and staff are very familiar with the way municipalities would like tasks done. In addition, we keep in stock various parts, fittings, pipe, brass, copper, valves, sewer ferncos, clamps and materials. We have (5) crews that are set up specifically with equipment and materials in order to make repairs, every crew has rubber track excavator with concrete breaker and hoe pack, as well as tri axle dumps and skid steer if needed. In addition, every crew has access to multiple sized trench boxes and plates that we can size specifically to the situation and task. All crews, forman and operators have worked with all different municipalities and situations with many years of experience.</p>	<p>Major has a proven track record of successfully completing city projects with quality and on time. We have previously completed work on several contracts with the City of Detroit, Dearborn, Novi, MDOT and the State of Michigan. We are Detroit, MDOT and Wayne County certified. We are prequalified with many companies.</p>	<p>SEI is equipped to install and repair water main , sanitary sewer and storm sewer at most depth and ground conditions by utilizing open cut or trenchless methods. Our employees are OSHA, Hazmat, CPR and AED certified. Many of our employees have been with SEI for 25+ years.</p>
Types of repairs or services your company would NOT be able to provide.	<p>Aielli Construction Company, Inc. does NOT provide the following services (however is able to procure quality contractors to perform them):</p> <p>Major Dewatering (well points and/or deep wells) Sewer Video/Jetting/Grouting Sewer Lining</p>	<p>D'Angelo Brothers does not self preform Sewer Jetting, Tving, or Lining. We do have a 12 Yard Hydro Vactor. All restoration is also completed in house.</p>	<p>Gas, electric, fiber optic.</p>	<p>SEI does not provide pipe lining or well point, deep well dewatering. We also do not do boring and jacking of utilities. We have several subcontractors that perform those activities.</p>

In addition to daily projects pertaining to water and sewer systems we also self preform large directional drilling up to 16" as well as fusing. We have completed many short and longer water & sewer main installation via open cut, or directional drilling for our clients in a emergency and non emergency setting. In addition to open cut and drilling we also have a Hammerhead 100X Pipe Bursting Machine. We have completed large and small bursts for both water and sewer systems. Pipe burst machine has abilities to burst from 4"-16" HDPE / PVC We have assisted on many repairs and emergencies upon municipalities request with our hydro vac	See attached list of completed projects.	City of Warren Emergency Repair Contract - David Wirth, P.E. 586/759/9300 - One City Square, Suite 300 Warren MI 48093  Rathmore Water Main and Various Repairs - City of Bloomfield Hills - HRC - Lia Michaels, P.E. 248/454/6812 - 555 Hulet Drive Bloomfield Hills, MI 48302  Plymouth Township Emergency Repair Contract - Dan Hamann, DPW Foreman - 734/564/2853 - 46555 Port Street Plymouth MI 48170  City of Sterling Heights Emergency Repair Contract - Jon Orzel, Sewer Supervisor 586/446/2445 - 7200 Eighteen Mile, Sterling Heights, MI 48314
Resources capable of bringing to the City	Diverse selection of equipment to perform repairs - see attached "Statement of Qualification"  Internal support staff which includes certified and licensed civil engineers, experienced estimators and project managers, accountants, procurement specialists and logistics experts  Field crews (20+ employees) specializing in underground utility installation and repairs  Foremen and Field Superintendents with vast knowledge of safety and production practices that ensure efficiency and quality in every installation and repair project  Detailed documentation of field practices  Full design/build support from the simplest to the most difficult repairs and installations  Extensive catalog of suppliers and subcontractors who work closely with our firm in both planned and emergency situations.	Directional drilling of water services ranging from 3/4"-16". We have (5) Directional drill machines, all drills are supported with a full excavation crew completing a full turn key installation. We can also just supply our drill and operator to any situation to install what is needed, such as when contractors hit a service, or if Rochester needs only a drill for any situation. Pipe Bursting sanitary sewer & water mains where conventional repairs may not be used Abilities to mobilize on sewer repairs of any size, we have multiple trailers loaded with different size shoring depending on the situation. At all times we have a 8axle semi trailer loader with large plates and boxes. In addition to our shoring, we are set up the same way with excavators, loader, and skid steers. We size every situation with the right size machines. Working in tight streets or situations calls for different set ups to complete the jobs. This is also the same for any small or large water repair or installation. D'Angelo Brothers understands the needs when it comes to completing jobs fast and accurate, we have multiple trains, semis and tri axle dumps allowing us to haul off and backfill in a timely manner. We stock all backfill materials at our shop, including Class II sand, 21AA, 6A Stone & Cold Patch, as well as dumping all spoils .	See attached list of projects with similar services .	Superior Excavating has performed work for over 50 years in Oakland, Macomb, Wayne, Washtenaw and Genesee Counties. We have developed great relationships with many Engineers, DPW directors, foremen and supervisors. We have a fleet of equipment that ranges from small equipment for minor repairs to very large equipment that can be used on more complex projects. We are also in close proximity to Rochester Hills for a fast response time.
