Legislative File No: 2026-0076

TO: Mayor and City Council Members
FROM: Tracey Balint, P.E., Interim Director, Department of Public Services
DATE: February 23, 2026
SUBJECT: Pump Replacement for Grant Lift Station

REQUEST:

City Council is requested to authorize the purchase of a pump for replacement at the Grant Lift Station in the amount of \$34,170.00 to Du-Bois Cooper, Plymouth, Michigan.

REASON FOR PURCHASE:

One of the pumps at the Grant Lift Station is in need of replacement. These pumps are responsible for managing sewerage in the lift station and are integral to our infrastructure as its primary job is to move City's sanitary sewer waste to the treatment plant efficiently and safely. The current pump is in need of replacement as it has seen some failures, in which the other pumps in the station are required to supplement and it "taxes" those pumps. Recognizing that the pump is at a point where repairs are no longer the cost-effective option, we are recommending the purchase of a replacement pump.

Du-Bois Cooper is the single source to provide the Hidrostal pump equipment and the City needs to replace like for like in this application. If the City were to try and utilize another pump, we would incur significant additional costs to retrofit wiring and the application the pump fits in, in order for it to work with a different pump. In replacing like for like, we simply are removing the pump, and able to install the new pump with no additional work or costs to be incurred. It is for these reasons we are recommending purchase of the Hidrostal pump.
