INTERESTS/REASONS/QUALIFICATIONS (Specifically list the reasons you are interested in serving on this/these committees and any qualifications you have for being on this/these committees:

I'm greatly interested in the open space/environmental committees where I like to spend much of time here in RH, and where I know I could bring my passion and appreciation for the outdoors into the decision-making process for protection and growth. Along with the natural space is also the historical side of our community. This area settled in the early 19th century has a wealth of knowledge and lessons. How can we continue to harness this history for the modern population to engage and learn from. I think having respect for the past and realizing how far we've come but to not cast off the lives and experiences of those who came before us is critical to be able to progress forward. I'm also interested in the planning and policy side for city planning since I've been greatly interested in what accessibility looks like around the community meaning with paths, sidewalks, trails how people can safely cross them and how pedestrians mix with drivers. I am a volunteer with Lead Dogs and it's very cognizant for me how often times spaces are only made with one type of able bodied person in mind, but how do we challenge that idea and shoot for universal accessibility. Driving along Rochester Rd on a daily basis and the surrounding corridors can sometimes be very scary or frustrating so how can use of transportation space mix efficiency with safety. These are some of these things that come to mind in my passions for this community and why I feel called to serve on a committee(s).
