Legislative File No: 2025-0395

TO: Mayor and City Council Members

FROM: Ken Elwert, CPRE, Director Parks and Natural Resources
Matt Einheuser, Natural Resources Manager

DATE: October 6, 2025

SUBJECT: Clinton River Streambank Stabilization Project - Innovation Hills and Eagles Landing

REQUEST:

City Council is requested to authorize a contract/blanket purchase order for the Clinton River Streambank Stabilization Project at Innovation Hills and Eagles Landing to L. D'Agostini and Sons, Inc., Macomb, Michigan in the amount of \$756,400.00 with a 10% project contingency in the amount of \$75,640.00 for a total not-to-exceed amount of \$832,040.00 and further authorizes the Procurement Manager to execute an agreement on behalf of the City.

REASON FOR PURCHASE:

The City's Purchasing Division issued an Invitation to Bid utilizing the MITN system with seven (7) bid responses received. During the review of the bid responses, four (4) bidders were deemed non-responsive and or/non-responsive for failure to comply with specifications and/or the special provision governing the mobilization bid item in which it was specified that the vendor's mobilization cost could not exceed 5% of the total bid. It is for these reasons that the City is recommending award of the project to L. D'Agostini and Sons, Inc., Macomb, Michigan as the lowest, responsive, responsible bidder.

The Clinton River, being part of an urban watershed, experiences rapid and frequent changes in water flow, with quick increases and decreases in water levels in response to storms or other precipitation events. This flashiness has caused increased erosion and accelerated channel migration in various locations along the river. The City has identified Innovation Hills and Eagle's Landing as two locations that need to be addressed to mitigate some of the erosion that has occurred to preserve the areas around it and prevent the loss of City property.

The streambank stabilization projects are intended to address areas within Innovation Hills and at Eagle's Landing where there are portions of the banks that have eroded and are jeopardizing trees, utilities, and other resources within the parks. The Clinton River continues to actively erode these sites, not only jeopardizing our park property and other adjacent resources, but the eroding banks are providing excess amounts of sediments into the Clinton River system. Using natural channel design methods, the stream bank projects will consist of a combination of bank stabilization, in-stream structures installation, and channel realignment. Both projects are identified in the adopted 2025-2030 Capital Improvement Plan and are budgeted for 2025.

PROCESS:**Vendor Name and Address:**

L. D'Agostini and Sons, Inc.
15801 23 Mile Road
Macomb Township, MI 48042

Reason for Selection:

Lowest, Responsive, Responsible Bidder

Method of Purchase:

Contract/Blanket Purchase Order

BUDGET:

Funding is included in the FY 2025 Adopted Budget

Fund Name	Department Account No	Account No. Description	Budget Amount	Cost	Remaining Budget
Water Resources	244.974000	PK-11C: Eagles Landing; PK-11D: Innovation Hills	\$965,000	\$832,040	\$132,960

RECOMMENDATION:

It is recommended that City Council authorize a contract/blanket purchase order for the Clinton River Streambank Stabilization Project at Innovation Hills and Eagles Landing to L. D'Agostini and Sons, Inc., Macomb, Michigan in the amount of \$756,400.00 with a 10% project contingency in the amount of \$75,640.00 for a total not-to-exceed amount of \$832,040.00 and further authorizes the Procurement Manager to execute an agreement on behalf of the City.
