COUNCIL AND YOUTH COMMITTEE REPORTS

Rochester Hills Government Youth Council (RHGYC):

President Deel introduced RHGYC Representative, Caroline Bull.

Ms. Bull stated that she is a Senior at Rochester Adams High School and that this is her fourth year on the RHGYC. She shared that over the past month, the RHGYC worked on planning the Exam Cram night at the Rochester Hills Public Library, however, the event was cancelled due to the snow storm in the area. She announced that they hope to reschedule the event near the end of the school year during Final Exams. She continued that over the coming months they will be planning the Cultural Fair.

Rochester Avon Recreation Authority (RARA):

Ms. Mungoli explained that postcards have been mailed out with QR codes, instead of the traditional multi-paged catalogs, that outline the Winter and Spring events at RARA. She continued that the events are also listed on the RARA website and that the events are filling up quickly.

PUBLIC COMMENT for Items not on the Agenda

Sylvia Orduno, 131 West Parkhurst Place, Detroit, MI, 48203, stated that she is the director of a grass roots organization, People's Water Board Coalition. She explained that they have been working since 2015 with State legislators to pass State-wide water affordability, which would create a State-wide program, fund, and set of protections for low-income residents and tenants. She shared that she has learned that the Mayor's Office is potentially looking to present a resolution to Council that is against the legislation. She requested that Council takes time to get information about the legislation and deliberate on this issue. She expressed the importance of the legislation and that a lot of residents live with water insecurity. She noted that it may not be a serious issue in the City, but that it is becoming a growing problem in Oakland County. She presented a document to the Council regarding this issue.

Lisa Tapert, 1644 Brewster Road, stated that the City is not isolated from the ups and downs that people may go through and that there are many people in the community that support all residents having access to clean water.

A motion was made by Walker, seconded by Blair, including all the preceding items marked as having been adopted on the Consent Agenda. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Deel, Morlan, Mungoli, Neubauer and Walker

LEGISLATIVE & ADMINISTRATIVE COMMENTS

President Deel wished all of the Rochester Hills students good luck on their Midterm Exams.

Ms. Neubauer shared that if residents would like to submit items (of \$25,000 or more) for the Capital Improvement Plan for the 2025-2030 time frame, the application is available on the City's website under the Planning and Economic Development Department. She added that residents wishing to submit a project are encouraged to contact the responsible Department for assistance in filling out the application. She announced that applications for new projects are due no later than Thursday, February 29, 2024 to Joe Snyder, Chief Financial Officer, by paper or email to snyderj@rochesterhills.org.

Vice President Walker shared that he attended two Ribbon Cuttings for new businesses in the area: Options Medical Weight Loss on January 11, 2024 and Snapology on January 17, 2024.

Clerk Scott stated that the Presidential Primary Election is on February 27, 2024 and that there will be nine days of early voting at the Rochester Hill Public Library from Saturday, February 17, 2024 to Sunday, February 25, 2024 with hours being 8:30 a.m. to 4:30 p.m. everyday except Thursday, where it will be open from 12:00 p.m. to 8:00 p.m. She explained that voters may request an absentee ballot, may vote at the early voting site, or may vote in their precinct on Election Day. She clarified the difference between being on the Absent Voter

List and the Permanent Ballot List by saying that voters on the Absent Voter List will automatically receive an application for a ballot prior to each election. She continued that voters on the Permanent Ballot List will automatically receive a ballot for each election. She added that with the passing of Proposal Two, voters now have the option to return an application and indicate on it that they want to be on the Permanent Ballot List, resulting in the voter not having to fill out an application again for future elections.

She shared that if you are on the Permanent Ballot List, the City is required to send you a ballot for each election. She continued that the Presidential Primary Election has three ballot styles, so a ballot selection must be made. She stated that ballot selection forms have been sent to everyone on the Permanent Ballot List and that if they are not returned to the City, those voters will receive a Local-Only Proposal ballot by February 16, 2024. She encouraged voters to complete their ballot selection forms and return them to the City. She remarked that completing the ballot selection form does not mean you are declaring or registering with a particular party. She shared that sample ballots are available on the website and any questions should be directed to the Clerk's Office at 248-656-4630.

Mayor Barnett addressed the two Public Comments regarding water affordability and stated that he has a differing opinion than theirs, but that he appreciates their opinions and passion.

He provided the following City updates:

- Ice skating is open at Spencer Park and the sledding hill is open at Bloomer Park.
- The City experienced a large amount of snowfall over the past couple of weeks and he shared two videos regarding the PlowTracker and a snow shoveling hack. The snow storm cost the City \$154,359 and there was a total of 9.4 inches of snow.

He shared that a DTE Energy Efficiency Consultant estimates a 15 percent reduction in electricity usage at City Hall by implementing LED lighting, resulting in approximately \$17,000 per year in savings. 2024-0020 Request for Purchase Authorization - FISCAL: Contract/Blanket Purchase Order for the purchase, implementation, and ongoing support and maintenance services of a budgeting software solution for a project budget in the amount of \$217,897.00; IGM Technology Corp., Toronto, ON

Attachments: [012224 Agenda Summary.pdf](#)
[Proposal Tabulation.pdf](#)
[Resolution \(Draft\).pdf](#)

Joe Snyder, Chief Financial Officer, and **Rochelle Lyon**, Information Systems Director, were present.

Mr. Snyder stated that this request is to enter into a five-year contract for the implementation and maintenance of a budgeting software solution to IGM Technology for a project budget of \$217,897.00. He explained that the City solicited proposals from budget software vendors last Fall and that ten proposals were received and a committee of City staff narrowed it down to the top three vendors for interviews and software demonstrations. He stated that IGM Technology was unanimously selected by the committee due to its thorough and user-friendly software system and for offering the lowest overall cost. He continued that this budget software purchase does not represent a change in the budget process, but rather a tool to enhance the

process and make it more efficient. He noted that the City has a heavy reliance on Microsoft Excel spreadsheets and Microsoft Word documents to produce the budget material each year. He explained that while they love Microsoft products, he believes they have taken those products as far as they can go in relation to publishing the City's budget plan. He commented that this software will also save a lot of time for data entry, resulting in the prevention of human error.

Ms. Mungoli remarked that she was unaware of the amount of manual work that goes into producing the budget documents. She questioned why the contract is for a five-year term and not the normal three-year term and if the software has an open-sourced code or if they own their own source code.

Mr. Snyder responded that in Year One of the contract, much of the effort and costs will be utilized in setting up the software, which makes it beneficial to have a longer term.

Ms. Lyon stated that the software has planned updates and migrations, but that the City can choose when they want to implement those updates and migrations. She added that the software is web-based in a private cloud solution and that she does not recall if it is an open-sourced code or not.

Mr. Blair expressed his concerns for reclaiming data from this software and questioned if the knowledge of the current Microsoft Excel and Word product system will be retained if they choose not to renew the contract in Year Six.

Ms. Lyon stated that if the City chose to not use the software in the future, the data would be able to be taken out and imported into another software or solution.

Mr. Blair questioned what the City would do if the software company went out of business.

Mr. Snyder responded that Microsoft Excel will be utilized to export the data into the new software system and that he does not have any plans of getting rid of the Microsoft Excel products.

A motion was made by Mungoli, seconded by Morlan, that this matter be Adopted by Resolution. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Deel, Morlan, Mungoli, Neubauer and Walker

Enactment No: RES0021-2024

Resolved, that the Rochester Hills City Council hereby waives Section 2-273(b), the 3-year requirement for long term contracts, under Section 2-281, which allows City Council the authority to waive any regulation or procedure pertaining to purchasing, deeming it to be in the best interest of the City to allow a 5-year contract.

Further Resolved, that the Rochester Hills City Council hereby authorizes the award of a contract/project budget for the purchase, implementation and ongoing support and maintenance services of a budgeting software solution to IGM Technology Corp., Toronto, Ontario for a project budget amount of \$217,897.00 for a 5-year contract term and further

authorizes the Mayor to execute an agreement on behalf of the City.

Further Resolved, that the City's acceptance of the proposal and approval of the award of a contract shall be contingent and conditioned upon the parties' entry into and execution of a written agreement acceptable to the City.

[Resolution \(Draft\).pdf](#)

Joe Snyder, Chief Financial Officer, presented a request to the City Council to enter a contract for the printing and distribution of the City's Water and Sewer Bills to Doxim, Inc for a three-year contract not-to-exceed \$167,180. He noted that seven proposals were received and a committee of City staff narrowed it down to the top two vendors for further evaluation. He stated that it was decided to continue with the City's current vendor, Doxim, Inc, which was determined to be the most cost-effective and efficient option. He added that the City has worked with Doxim, Inc. for more than ten years and that they have been satisfied with the services they provide.

Ms. Morlan stated that Doxim, Inc. is a local company.

A motion was made by Morlan, seconded by Walker, that this matter be Adopted by Resolution. The motion carried by the following vote:

Aye 7 - Blair, Carlock, Deel, Morlan, Mungoli, Neubauer and Walker

Enactment No: RES0022-2024

Resolved, that the Rochester Hills City Council hereby authorizes a blanket purchase order for the printing and distribution of the City's Water and Sewer bills to Doxim, Inc., Troy, Michigan in the amount not-to-exceed \$167,180.00 for a three-year term.

She stated that this allowed the City to have more control over their contracts. She explained that the contracts were for a five-year term, with the option to renew for five additional years. Mayor Barnett shared that this was a long process and thanked Ms. Cummins, her team, and Mr. Frey for their efforts in negotiating this agreement. He added that the first thing they focused on was if they have any issues with the current providers, and he stated that they only get about 25 complaints a month, which is very low. He continued that the second thing they focused on was making sure they were able to negotiate the best rates, and that they were able to keep all the services the same at a lower cost.

President Deel noted that he is extremely pleased with the results of this agreement and that it is a great deal for the residents. He added that the continuation of the recycling program with SOCRRA benefits the City and allows the City to know where their recyclables are going. He shared that he has a property in another municipality and that the solid waste services they receive there do not compare to what they get in Rochester Hills.

Ms. Mungoli requested that the PowerPoint Presentation slides are made a part of the agenda packet.

President Deel responded that would be done.

Ms. Mungoli shared that she is glad that residents can continue to leave large items at the curb for pickup and that there are still RecycleBank points at the schools. She thanked GFL for offering the services to the City residents.

Mr. Blair remarked that an important aspect of this contract is that the vehicles are inspected every year by City staff. He questioned if recycling in the parks is a part of this proposal.

Mayor Barnett responded that the City has a program, Green City, that creates more opportunities for recycling within the parks system.

Bill Fritz, Public Services Director, commented that this request is for a one-year blanket purchase order for additional traffic engineering services that are needed due to current staffing shortages. He added that the services include traffic studies, engineering inspections, and site construction.

President Deel inquired why this was not included in the budget.

Mr. Fritz stated that the South Brooklands Traffic Engineering Study is already set to be covered by this.

President Deel explained that the Brooklands Study will be a big project, so the services of Hubbell, Roth, & Clark will help manage that.

Ms. Mungoli stated that the project they are talking about is for South Brooklands, but that residents from North Brooklands also reached out to her and wanted to know why they weren't included in the study. She questioned whether it will cost another \$75,000 in engineering costs each time a study needs to be done for a certain area.

Mr. Fritz responded that the South Brooklands study is under \$20,000 and that the City is open to performing traffic studies within the North Brooklands area as well.

Ms. Mungoli questioned if they have to get a petition together to do that and what the timing might be for a study to be done.

President Deel stated that they have already done a petition and that at the meeting residents were told that they will be studying South Brooklands first and that they will proceed on to the North Brooklands area.

Mr. Fritz explained that they want to get through the current study first before they start planning for other areas.

President Deel shared that the City has a website that explains the traffic engineering/study process and how to get a certain area included in the study.

Mr. Blair noted that he is the Council Representative for the Advisory Traffic and Safety Board, which meets the second Tuesday of each month, and that residents can come to one of these meetings with any questions or concerns.
